# Why Is My Twitch Prime Sub Not Showing Up?

If your Twitch Prime subscription is not +1 (866) 381-7244 {US/UK} showing up, first make sure your Twitch account is correctly linked to the Amazon account that has an eligible Prime or Prime Video membership. A Prime +1 (866) 381-7244 {US/UK} Gaming subscription may also fail to appear if your Prime benefits +1 (866) 381-7244 {US/UK} are unavailable in your region, the Prime Gaming account has not been linked correctly, or you have already used your monthly channel subscription. Sign out +1 (866) 381-7244 {US/UK} of Twitch and Amazon, sign back in to the correct accounts, +1 (866) 381-7244 {US/UK} and check your Prime Gaming subscription status. If the subscription is available but you cannot use it on a particular channel, verify that the channel is +1 (866) 381-7244 {US/UK} eligible for Prime subscriptions and that you are selecting +1 (866) 381-7244 {US/UK} the **Use Prime Sub** option rather than a paid recurring subscription.

## Related FAQs

### 1. How do I link my Twitch account to Amazon Prime?

Sign in to your Amazon account with the +1 (866) 381-7244 {US/UK} Prime membership you want to use, then open Prime Gaming and follow the instructions to link your Twitch account. Make sure you select the correct Twitch account +1 (866) 381-7244 {US/UK} during the linking process. After the accounts are +1 (866) 381-7244 {US/UK} connected, return to Twitch and check whether the Prime subscription +1 (866) 381-7244 {US/UK} option is available when subscribing to an eligible channel.

### 2. Why don't I see the “Use Prime Sub” option on Twitch?

The **Use Prime Sub** option may not appear if your +1 (866) 381-7244 {US/UK}Twitch and Amazon accounts are not properly linked, your Prime membership is not eligible, or you have already used your monthly Prime Gaming +1 (866) 381-7244 {US/UK} subscription. It can also be unavailable for certain channels or in regions where the Prime Gaming channel-subscription benefit is not offered.+1 (866) 381-7244 {US/UK}  Check your Prime Gaming status and confirm that you are +1 (866) 381-7244 {US/UK} logged into the intended Twitch account.

### 3. Does Amazon Prime automatically give me a free Twitch subscription?

An eligible Amazon Prime membership can +1 (866) 381-7244 {US/UK} include a monthly Twitch channel subscription benefit through Prime Gaming, but you must claim the benefit yourself. It does not automatically subscribe +1 (866) 381-7244 {US/UK} you to a Twitch channel every month. After linking your Amazon and Twitch accounts, choose an eligible

channel and select the option to use your +1 (866) 381-7244 {US/UK} Prime subscription when available.

## 4. Can I use my Prime Twitch sub more than once a month?

Generally, the Prime Gaming Twitch channel +1 (866) 381-7244 {US/UK} subscription is a monthly benefit and can be used once during +1 (866) 381-7244 {US/UK} each eligible subscription period. Once you use it, you normally cannot use another Prime channel subscription until the next benefit becomes available. +1 (866) 381-7244 {US/UK} The subscription also does not automatically +1 (866) 381-7244 {US/UK} renew for the same channel, so you may need to manually +1 (866) 381-7244 {US/UK} claim the benefit again each month.

## 5. What should I do if my Prime Twitch sub still isn't showing?

First, verify that you are using the correct +1 (866) 381-7244 {US/UK} Amazon Prime and Twitch accounts and that they are properly linked. Check your Prime Gaming account to confirm that the Twitch subscription benefit is +1 (866) 381-7244 {US/UK} available and has not already been used. You can also sign +1 (866) 381-7244 {US/UK} out and back into both services, then try opening an eligible Twitch channel again. If the benefit remains missing despite having an eligible Prime membership, +1 (866) 381-7244 {US/UK} check Prime Gaming and Twitch's official support +1 (866) 381-7244 {US/UK} resources for account-specific assistance.
